Direction (Q. 37 to Q. 40): Read the passage carefully and answer the question that follows:

Child labour refers to a crime where children are forced to work from a very early age. It is like expecting kids to perform responsibilities like working and fending for themselves. There are certain policies which have put restrictions and limitations on children working. The average age for a child to be appropriate to work is considered fifteen years and more. Children falling below this age limit won't be allowed to indulge in any type of work forcefully.

Child Labour happens due to a number of reasons. Firstly, it happens in countries that have a lot of poverty and unemployment. When the families won't have enough earning, they put the children of the family to work so they can have enough money to survive. Similarly, if the adults of the family are unemployed, the younger ones have to work in their place. Moreover, when people do not have access to the education, they will ultimately put their children to work. The uneducated only care about a short-term result which is why they put children to work so they can survive their present.

If we wish to eradicate child labour, we need to formulate some very effective solutions which will save our children. To begin with, one can create a number of unions that solely work to prevent child labour. It should help the children indulging in this work and punishing those who make them do it.

Furthermore, we need to keep the parents in the loop so as to teach them the importance of education. If we make education free and the people aware, we will be able to educate more and more children who won't have to do child labour. Moreover, making people aware of the harmful consequences of child labour is a must.

b. Family control measures may also help in eradicating the evils of child labour.

c. A number of unions can be created that work to prevent the child labour.

d. Providing free education to children is also an effective measure to eradicate child labour.

39. Which of the following is not true according to the passage?
